Dear Sir

I have been notified by the assistant harbor master of the Shannon Foynes Port Company of the ship at sea which may enter the Shannon Estuary. On behalf of Clare County Council I require that the ship is not brought into waters which would impact on the shoreline of County Clare.

The whole of the estuary in this area is a SAC and SPA for birds and is highly sensitive with extensive habitats and tourism interests.

Please divert the ship to a more appropriate location.

Regards
Senior Engineer
Clare County Council
